DEBT MANAGEMENT POLICY
NRS 350.013 Subsection 1(c)

Listed below are excerpts from Nevada Law which requires local governments to submit a debt management policy:

NRS 350.013 1. Except as otherwise provided in this section, on or before August 1 of each year, the governing body of a municipality which proposes to issue or has outstanding any general obligation debt, other general obligations or special obligations, or which levies or proposes to levy any special elective tax, shall submit to the Department of Taxation and the commission:

(c) A written statement of the debt management policy of the municipality, which must include, without limitation;

(1) A discussion of its ability to afford existing general obligation debt, authorized future general obligation debt and proposed future general obligation debt;

(2) A discussion of its capacity to incur authorized and proposed future general obligation debt without exceeding the applicable debt limit;

(3) A discussion of its general obligation debt that is payable from property taxes per capita as compared with such debt of other municipalities in this State;

(4) A discussion of its general obligation debt that is payable from property taxes as a percentage of assessed valuation of all taxable property within the boundaries of the municipality;

(5) Policy regarding the manner in which the municipality expects to sell its debt;

(6) A discussion of its sources of money projected to be available to pay existing general obligation debt, authorized future general obligation debt and proposed future general obligation debt; and

(7) A discussion of its operational costs and revenue sources, for the ensuing 5 fiscal years, associated with each project included in its plan for capital improvement submitted pursuant to paragraph (d), if those costs and revenues are expected to affect the property tax rate.

This document is intended to meet the requirements of NRS 350.013 subsection 1 (c), it is not a review of the City of Henderson's total financial position.

The City of Henderson (the "City") has a Capital Improvement Plan ("CIP") which is a multi-year planning document that identifies and prioritizes the need for a variety of public improvements and coordinates the City's financing and construction time frames. More specifically, the CIP is a process that provides order and continuity to the repair, replacement, construction or expansion of the City's capital assets. With revenue limitations in mind, the City's CIP focuses primarily on the City's more immediate needs.

Summary of Debt

OUTSTANDING GENERAL OBLIGATION INDEBTEDNESS ^{1/}
City of Henderson, Nevada

COMPOSITION OF OUTSTANDING DEBT
City of Henderson, Nevada
As of June 30, 2016

Affordability of Debt

Response to NRS 350.013 1(c):

- (1) *A discussion of its ability to afford existing general obligation debt, authorized future general obligation debt and proposed future general obligation debt; and*
- (6) *A discussion of its sources of money projected to be available to pay existing general obligation debt, authorized future general obligation debt and proposed future general obligation debt*

General Obligation Bond Indebtedness

The City has authority pursuant to Nevada state statutes and its City Charter to issue general obligation bonds. Ad valorem bonds constitute direct and general obligations of the City, and the full faith and credit of the City is pledged for the payment of principal and interest, subject to Nevada constitutional and statutory limitations on the aggregate amount of ad valorem taxes.

In any year in which the total property taxes levied within the City by all applicable taxing units (e.g. the State of Nevada, Clark County, the school district, any city, or any special district) exceed such property tax limitations, the reduction to be made by those units must be in property taxes levied for purposes other than the payment of their bonded indebtedness, including interest on such indebtedness.

Nevada statutes provide that no act concerning the City's bonds or their security may be repealed, amended, or modified in such a manner as to impair adversely the bonds or their security until all of the bonds have been discharged in full or provision for their payment and redemption has been fully made.

General Obligation Bonds

**Existing General Obligation Bond Indebtedness
Paid from Ad Valorem Taxes (“General Obligation Bonds”)**

Authorized and Proposed Future Ad Valorem Supported Bonds

Currently, the City does not have plans to issue additional General Obligations Bonds. The City reserves the privilege of issuing bonds or other securities at any time legal requirements are satisfied.

General Obligation Medium-Term Bonds

Existing General Obligation Bond Indebtedness

Paid from General Fund Revenues (“Medium-Term Bonds”)

The Medium-Term Bonds constitute direct and general obligations of the City, and the full faith and credit of the City is pledged for the payment of principal and interest, subject to Nevada constitutional and statutory limitations regarding the City's operating ad valorem levy. The ad valorem tax levy available to pay the Medium-Term Bonds is limited to the City's maximum operating levy. The City's operating levy for fiscal year 2017 is \$0.5508 which includes \$0.2310 in voter approved overrides. The ad valorem tax rate available to pay the bonds is further limited by the limitation on the combined overlapping tax rate of \$3.64 per \$100 of assessed valuation. The Medium-Term Bonds are a debt of the City and the City shall pledge all legally available funds of the City for their payment.

Provision for the payment of principal and interest requirements on the Medium-Term Bonds is as provided in NRS 350.093 through 350.095. Nevada statutes provide that no act concerning the Medium-Term Bonds or their security may be repealed, amended, or modified in such a manner as to impair materially and adversely the Medium-Term Bonds or their security until all of the Medium-Term Bonds have been discharged in full or provision for their payment has been fully made.

Authorized and Proposed Future Medium-Term Bonds

The City is currently seeking authorization to issue additional medium-term general obligation bonds in the amount of \$15,200,000. These bonds will be used to finance police communication equipment and to refinance the callable portion of the City's outstanding 2009 Installment Purchase Agreement for debt service savings. The City anticipates issuing these bonds in August 2016. The City reserves the privilege of issuing bonds or other securities at any time legal requirements are satisfied.

**General Obligation/Revenue Bonds
Paid from Consolidated Tax Revenues**

**Existing General Obligation Bond Indebtedness
Paid from the Consolidated Tax Revenues (“Consolidated Tax Bonds”)**

The Consolidated Tax Bonds are general obligation bonds additionally secured with revenues derived from a 15% portion of the City's portion of the Consolidated Tax Revenues.

Pursuant to NRS 360.698, the Bonds will be additionally paid from a pledge of certain tax revenues up to 15% of the Consolidated Tax Distribution Fund allocable to the City for the payment of the principal of and interest on the Bonds. The Consolidated Tax Distribution Fund consists of local government revenues from six sources (collectively, the "Consolidated Tax Revenues"): Supplemental City/County Relief Tax ("SCCRT"), Basic City/County Relief Tax ("BCCRT"), Cigarette Tax, Liquor Tax, Governmental Services Tax ("GST"), and Real Property Transfer Tax ("RPTT"). NRS 360.698 allows for up to 15% of the combination of the Consolidated Tax Revenues to be pledged as security for debt. Senate Bill 254 of the 1997 Legislature amended NRS 377.080, (which was replaced in revision by NRS 360.698) which previously authorized a pledge of up to 15% of SCCRT. Pursuant to the provisions of Senate Bill 254, pledges of SCCRT made prior to the effective date were replaced by a pledge of the combined revenues as of July 1, 1998.

Authorized and Proposed Future Consolidated Tax Bonds

The City has no plans to issue additional general obligation bonds paid from consolidated tax revenues in the near future. However, the City reserves the privilege of issuing the bonds or other securities at any time legal requirements are satisfied.

General Obligation Consolidated Tax Revenues Bonded Indebtedness

**General Obligation/Revenue Bonds
Paid from Utility Revenues**

**Existing General Obligation Bond Indebtedness
Paid from Utility Revenues (“Water and Sewer Bonds”)**

The Water and Sewer Bonds are general obligation bonds additionally paid from an irrevocable pledge of the net pledged revenues received by the City in connection with the ownership and operation of the City’s municipal utility system. Net pledged revenues consist of all fees, rates and other charges for the use of the utility system remaining after deduction of operation and maintenance expenses in the utility system.

The City covenants in its bond ordinances to fix and collect rates and other charges for the services or commodities pertaining to the utility system in amounts sufficient to pay the operation and maintenance expenses of the system and any debt service its outstanding Water and Sewer bonds.

Authorized and Proposed Future Utility Revenue Supported Debt

The City does not have plans to issue additional general obligations bonds paid from utility revenues. However, the City reserves the privilege of issuing the bonds or other securities at any time legal requirements are satisfied.

General Obligation Utility Revenues Bonded Indebtedness

The following table sets forth the City's bonded indebtedness for its outstanding general obligation revenue bonds and revenue bonds paid from utility revenues.

1/ On November 15, 2011, the City Council approved four annual rate increases effective January 1 of each year beginning 2012 through 2015. Water rates were increased 2.5%, while Sewer rates were increased 6%, for an overall annual increase of approximately 3.5% per year. On August 4, 2015, the City Council approved a 2% annual water rate increase and no sewer rate increase from 2017 through 2020.

2/ Fiscal year 2012 includes a one-time reimbursement of \$3,632,092 received in September 2011. The reimbursement represents the City's share of the Clean Water Coalition, an intergovernmental group which was terminated in 2011, and its funds returned to its members.

3/ Includes only investment income received and does not include changes in market value of the investments. Source: City of Henderson Finance Department.

4/ Excludes depreciation.

5/ Includes amounts paid to SNWA for wholesale delivery of water to the City.

6/ Excludes revenues and expenditures associated with SNWA pass-through charges. Because the amounts received from these charges and the amounts paid to SNWA offset each other, coverage is not impacted when they are excluded.

Debt Capacity

Response to NRS 350.013 1(c):

- (2) *A discussion of its capacity to incur authorized and proposed future general obligation debt without exceeding the applicable debt limit.*

The Charter for the City of Henderson limits the aggregate principal amount of the City's general obligation debt to 15% of the City's total reported assessed valuation. Based upon the 2017 assessed valuation of \$12,188,283,079 (including the assessed valuation of the Henderson Redevelopment Agency with an assessed value of \$558,228,496), the City's debt limit for general obligation bonds is \$1,828,242,462. In addition to the City's legal debt limit as a percentage of its total assessed value, the City's ability to issue future property tax supported debt is also constrained by constitutional and statutory limits of total property taxes that may be levied.

The following table illustrates the City's general obligation statutory debt limitation.

STATUTORY DEBT LIMITATION ^{1/}
City of Henderson, Nevada
For Fiscal Year 2016

Statutory Debt Limitation ^{1/}	\$ 1,828,242,462

Policy Statement for Sale of Debt

Response to NRS 350.013 1(c):

(5) *Policy regarding the manner in which the municipality expects to sell its debt.*

The City can sell its debt directly to a bank or can issue bonds in the municipal bond market. The decision as to whether to issue bonds or obtain bank financing is based upon which alternative will provide the City with the lowest cost.

If bonds are issued, there are two ways bonds can be sold: competitive (public) or negotiated sale. NRS 350.105 to 350.195 set forth the circumstances under which a local government will sell its bonds at competitive or negotiated sale. The City will follow the statutory requirements in determining the method of sale for its bonds.

Competitive and negotiated sales provide for one or more pricings, depending upon market conditions or other factors. Either method can provide for changing sale dates, issue size, maturity amounts, term, bond features, etc. The timing of any sale is generally related to the requirements of the Nevada Open Meeting Law.

Competitive Sale

In a competitive sale, all underwriter(s) are invited to submit a proposal to purchase an issue of bonds. The bonds are awarded to the underwriter(s) presenting the best bid according to stipulated criteria set forth in the notice of sale. The best bid is determined based on the lowest overall interest rate.

Negotiated Sale

In a negotiated sale, an exclusive arrangement is made between the issuer and an underwriter or underwriting syndicate. At the end of successful negotiations, the issue is awarded to the underwriter. If bonds are sold through a negotiated sale, the City will comply with the requirements of NRS 350.175.

A negotiated underwriting may be considered based upon one or more of the following criteria:

- Extremely large issue size
- Complex financing structure (i.e. new security feature, variable rate financings, new derivatives, and certain revenue issues, etc.) which provides a desirable benefit to the City
- Difficulty in marketing due to credit rating or lack of bids
- Private placement, or sale to a municipality, to the state, or a federal agency
- Other factors which lead the City to conclude that competitive sale would not be effective. It is the policy of the City to provide minority business enterprises, women business enterprises and all other business enterprises an equal opportunity to participate in the performance of all City contracts. Bidders are requested to assist the City in implementing this policy by taking all reasonable steps to ensure that all available business enterprises, including minority and women business enterprises have an equal opportunity to participate in City contracts.

Operation Costs and Revenue Sources for Projects in Capital Improvement Plan

Response to NRS 350.013 1(c):

- (7) *A discussion of its operational costs and revenue sources, for the ensuing 5 fiscal years, associated with each project included in its plan for capital improvement submitted pursuant to paragraph (d), if those costs and revenues are expected to affect the property tax rate.*

The Capital Improvement Plan (the “CIP”) contains current and proposed projects for the next five years segregated into the following categories: water, wastewater, streets, flood control, street lights, traffic control, parks and recreation, municipal facilities, and school flashing lights.

The cost estimates are very preliminary in nature, as design has not taken place in most cases. Cost summaries are included for each category at the beginning of each section. The City may not be able or willing to provide this level of funding even with some sources of funds external to the City. Over the time interval anticipated by this document, some portions of these projects can be expected to be provided by the developers as construction continues in the City. It is not possible for the City to fully anticipate when and where such developer-provided construction will occur.

Future bonding may be an alternative to providing funding for some of the needed infrastructure where currently funding has not been identified. The City has expended virtually all local street and flood bonds. A bonding package could be promoted to include certain identified streets, local flood control including nuisance drainage, street lights, school flashing signals, and traffic signals. A list could be projected based upon some of the top priorities listed in the CIP for the identified categories. Currently, the City does not anticipate that operational costs and revenue sources associated with the funding of capital improvements identified in its CIP will affect the property tax rate.

Miscellaneous Items

Refundings

A refunding is generally the underwriting of a new bond issue whose proceeds are used to redeem an outstanding issue. Key definitions are described as follows:

Advance Refunding - A method of providing for payment of debt service on a bond until the first call date or designated call date from available funds. Advance refundings are done by issuing a new bond or using available funds and investing the proceeds in an escrow account in a portfolio of U.S. government securities structured to provide enough cash flow to pay debt service on the refunded bonds.

Current Refunding - The duration of the escrow is 90 days or less.

Gross Savings - Difference between debt service on refunding bonds and refunded bonds less any contribution from a reserve or debt service fund.

Present Value Savings - Present value of gross savings discounted at the refunding bond yield to the closing date plus accrued interest less any contribution from a reserve or debt service fund.

Prior to beginning a refunding bond issue the City will review an estimate of the savings achievable from the refunding. The City may also review a pro forma schedule estimating the savings assuming that the refunding is done at various points in the future.

The City will generally consider refunding outstanding bonds if one or more of the following conditions exist:

1. Present value savings are at least 3% of the par amount of the refunding bonds.
2. The bonds to be refunded have restrictive or outdated covenants.
3. Restructuring debt is deemed to be desirable to align debt service obligations with revenues available for repayment.

The City may pursue a refunding not meeting the above criteria if:

1. Present value savings exceed the costs of issuing the bonds.
2. Current savings are acceptable when compared to savings that could be achieved by waiting for more favorable interest rates and/or call premiums.

Debt Structure

Maturity Structures - The term of City debt issues should not extend beyond the useful life of the project or equipment financed. The repayment of principal on tax supported debt should generally not extend beyond 20 years unless there are compelling factors which make it necessary to extend the term beyond this point.

Debt issued by the City should be structured to provide for generally level debt service. Deferring the repayment of principal should be considered only in select instances where it will take a period of time before revenues are sufficient to pay debt service.

Capitalized Interest - The City will generally not capitalize interest unless there are compelling factors which make it necessary or desirable to do so.

Bond Insurance - The purchase of bond insurance may be considered as part of the structure of a bond issue. Bond insurance is an insurance policy purchased by an issuer or an underwriter for either an entire issue or specific maturities, which guarantees the payment of principal and interest. While this security provides a higher credit rating and thus a lower borrowing cost for an issuer, such cost savings must be measured against the premium required for such insurance.

The decision to purchase insurance directly versus bidder's option is based on:

- volatile markets
- current investor demand for insured bonds
- level of insurance premiums
- ability of the City to purchase bond insurance from bond proceeds

Bond insurance can be purchased directly by the City prior to the bond sale (direct purchase) or at the underwriter's option and expense (bidder's option). In cases where insurance is purchased, the City will attempt to qualify its bond issues for insurance with bond insurance companies with ratings higher than the underlying rating on the bonds by Moody's Investors Service and S&P Global Ratings.

When insurance is purchased directly by the City, the present value of the estimated debt service savings from insurance should be at least equal to or greater than the insurance premium. The bond insurance company will usually be chosen based on an estimate of the greatest net present value insurance benefit (present value of debt service savings less insurance premium).

Financing Sources

The City will evaluate available County/State bond financing programs before choosing the financing source. The City will consider utilizing a County/State program if bonds can be sold by the County/State in a manner that meets the City's timing needs and if two or more of the following conditions are expected:

- 1) The City will benefit from the County/State's credit rating.
- 2) The City will reduce its issuance costs by combining with other participants.
- 3) The City will be able to approve the structure of the bonds.
- 4) The utilization of the County/State program is the most cost effective source of funds.

5-Year Operating Tax Rate Forecast

The City of Henderson currently levies the maximum allowed tax rate for general operating purposes. For fiscal years 2016-2017 through 2021-2022 the City also plans to levy the maximum allowed operating tax rate. Additionally, the City reserves the right to ask City voters to approve any special elective tax rate that may be necessary.

CHIEF FINANCIAL OFFICER INFORMATION
NRS 350.013 Subsection 1(e)

A statement containing the name, title, mailing address and telephone number of the chief financial officer of the municipality.

NAME: Richard Derrick
