

# Citizen Engagement through GIS Mapping

**CITY OF HENDERSON**

# GIS INTERACTIVE MAPPING ACCOMPLISHMENTS

- The City of Henderson, Nevada provides several interactive maps that can be used by citizens to find information about:
  - Elected Officials
  - Home Owners Associations
  - Business License
  - School Zones
  - Zoning and Land Use
  - Points of Interest
  - Watering Groups
  - Seismic Site Class
  - Current Road Construction
  - Crime Search
  - Open Development
  - Sex Offender Registry
- All of the above interactive maps can be found at <http://www.cityofhenderson.com/gis/index.php>.
- The City continues to view GIS as a technology that can easily and visually engage its citizens and is pleased to announce its latest additions to the interactive mapping offerings: Parks and Trails, and Land Development Activity.

The new Land Development Activity map allows citizens to identify basic information about development, such as project name, summary and applicant.

## LAND DEVELOPMENT MAP
