

PURPOSE

To increase City government transparency, accountability, engagement, and accessibility for those who live, learn, work and play in our community.

MILESTONES

Furthering the City's Policy and Programmatic Priorities

2020 KPIs

Created key performance indicators (KPIs) for key processes and identified a framework for public use to improve accountability.

2021 OPEN DATA PORTAL

Revamped the Open Data Portal and developed internal Data Governance Policy to improve transparency.

2022 DATA PROACTIVELY RELEASED

Proactively released Strategic Plan data and information in a fully accessible format to improve transparency and accessibility.

2023 CITYWIDE DATA STRATEGY

Began work to create an enterprise-wide data strategy that supports the City's Strategic Priority of "High Performing Public Service" and sets out the long-term vision for collecting, storing, sharing, and using data.

PROGRESS TOWARD GOALS

2023 National Performance Consortium

Shared data and best practices with local and national partners. Contributed to broader regional and national efforts to support High Performing Public Service. Educated external partners and stakeholders on City programs and operations and how the City uses data to make decisions.

Data Academy

Created and launched a Citywide internal Data Academy focusing on upskilling City employees in the use of data and analytics as a tool for evidence-based decision-making that supports premier services and programs.

Public Engagement

Through public presentations, the Open Data Portal, social media and other outlets, residents were educated about the City's use of data to support its Premier programs and operations, and how that data and information can be accessed.
