Informational Bulletin

Issue 104

[COHFireSafety@CityofHenderson.com](mailto:COHFireSafety@CityofHenderson.com)

April 28, 2011

Are you using the most current NFPA, AFFA, NFSA, or AFSA, etc. inspection forms?

If not, now is the time to update them. Inspection, testing, and maintenance forms used after July 4, 2011 must mirror in form and content the sample inspection reports posted on the City of Henderson [website](#).

Why this matters...

The inspection testing and maintenance (ITM) requirements found in NFPA Standards continue to change due to technology advances and lesson learned from recent incidents. Forms need to keep up.

The ITM service being rendered requires:

1. Documentation that is thorough and accurate
2. Completion of all areas of the form
3. Use of the correct ITM form
