

City of Henderson Fire Safety Engineering Informational Bulletin

Issue 102

COHFireSafety@CityofHenderson.com

March 9, 2011

HOW DO YOU GET PUBLIC WATER SUPPLY INFORMATION FOR FIRE SPRINKLER DESIGN, WITHOUT LEAVING YOUR OFFICE?

There is a new procedure in place for pulling an F-206 permit by using your fax machine & computer. See the attached procedure for instructions on how to apply for this permit. Two pieces of paper, 15 minutes of your time, \$153 permit fee and you're done.

No sending crews out to meet a fire inspector, no opening a fire hydrant, no spending hours in researching which water zone you need, no coming to Henderson City Hall. The results are e-mailed right back to your office. The normal turnaround time for processing this request is 2 weeks.

Manual flow test are still allowed see City of Henderson Ordinance 2889, [2009 IFC Section 507.4](#), "When approved, a manual water supply test may be permitted." Note: Manual flow test permits are required for private waterlines as they are not modeled by the City of Henderson.

REMEMBER THERE'S A DROUGHT OUT THERE – SAVE WATER
